SHREEHARI PANDURANGA

PROGRAM MANAGEMENT | INDUSTRIALIZATION | SUPPLY CHAIN EXECUTIVE

Foxborough, Massachusetts, USA | +1 781 985 8639 | shreehari.panduranga@se.com | LinkedIn

EXECUTIVE PROFILE

Program, Industrialization, Supply Chain and Operations leader with **24+ years** of experience leading complex, multi-business units and cross-functional portfolios across Industrial Automation and Energy Management. Proven success translating commercial and product strategies into executable programs through portfolio governance, financial oversight, risk management, resource alignment, operational readiness and executive stakeholder engagement. Experienced in leading geographically dispersed teams, coaching project leaders and delivering measurable improvements in profitability, capital efficiency, customer outcomes and time-to-market.

CAREER IMPACT

24+ YEARS EXPERIENCE	**48%** COST REDUCTION	**41%** MARGIN IMPROVEMENT	**36%** CAPEX OPTIMIZATION	**OTD** PROJECTS	**CSC** ON COST

CORE LEADERSHIP COMPETENCIES

Global Industrialization Leadership | Program & Portfolio Governance | Supply Chain Strategy | Manufacturing Operations | New Product Introduction | Localization & Product Transfers | Strategic Sourcing & Supplier Development | Operational Excellence | CapEx & Cost Transformation | KPI & Risk Management | Digital Transformation | Change Management | PMP | OCP/OLM/SPS

PROFESSIONAL EXPERIENCE – Current

Schneider Electric | HIGH PERFORMER | SME (PM)

Senior Offer Industrialization Lead – Industrialization | Oct 2011 – Present

Global industrialization leadership across Industrial Automation, Energy Management, connecting business leaders, R&D, commercial, manufacturing, procurement, supply chain, planning and launch.

- Lead **complex, high-impact industrialization projects** end to end, turning business and operational priorities into structured plans and deliverables while balancing resources, schedules, priorities and budgets against business objectives.
- Lead **cross-functional collaboration** across engineering, operations, supply chain, quality, procurement and manufacturing to enable successful industrialization.
- Develop and implement **project management frameworks, governance processes and delivery methodologies** that improve visibility, accountability and performance.
- **Achieved 48% cost reduction, 41% margin improvement, and 36% CapEx optimization**, turning industrialization strategy into measurable enterprise value through value engineering, cost optimization and rigorous capital investment governance.
- Proactively manage **risks, dependencies, constraints and delivery challenges**, with mitigation and recovery plans that protect key milestones.
- Lead **complex and ambiguous initiatives**, structuring problems, evaluating alternatives and driving solutions with medium- to long-term business and operational impact.
- Influence **strategic direction and decision-making** by giving senior stakeholders recommendations, project insights, risk assessments and delivery scenarios.
- Drive **continuous improvement and operational excellence** by simplifying processes, improving efficiency and strengthening industrialization practices. Serve as a **senior subject-matter leader** on complex or unprecedented challenges, balancing technical, operational, commercial and program needs to deliver scalable, sustainable solutions.

PROFESSIONAL EXPERIENCE — Previous

ABB Ltd | HIGH PERFORMER

Localization Leader – Supply Chain Management | Feb 2008 – Sep 2011

- **Achieved 83% cost reduction, 41% margin improvement, and 32% CapEx optimization**
- Directed localization and supplier-development initiatives of Breakers and Low Voltage Systems, spanning testing, vendor development, inventory, stores, sourcing and operational performance to improve cost competitiveness, availability and supply continuity.
- Integrated supplier and internal stakeholder execution around quality, delivery, testing, inventory and manufacturing requirements, enabling reliable introduction of localized products.
- Strengthened supply chain resilience through cross-functional planning, supplier alignment, and disciplined operational follow-through.

KDDL Limited | HIGH PERFORMER

Design & Industrialization Leader | Mar 2005 – Feb 2008

- Led design, tooling, process development and industrialization of horological precision metal parts in a quality-intensive manufacturing environment.
- Improved manufacturability and production readiness through engineering collaboration, disciplined process development and structured problem solving.

Aditya Precision Moldings Pvt. Ltd. / Nypro Forbes Products Pvt. Ltd

Tool Room & Design Leader | Aug 2002 – Mar 2005

- Led injection-molding and press-tool development, maintenance, machine development, vendor development and production support.
- Built a strong operational foundation in tool-room management, manufacturing execution, quality and industrial problem solving.

SELECTED EXECUTIVE IMPACT

- Connected product strategy with manufacturing readiness, sourcing, investment, quality and launch execution across complex automation portfolios.
- Enabled localization, business continuity, and manufacturing-transfer decisions through clear operational accountabilities and cross-functional alignment.
- Advanced digital visibility through KPI dashboards, executive summaries, portfolio reviews, and decision-oriented reporting.

EDUCATION

MBA – Master of Business Administration | Finance & Marketing | Vinayaka Missions University
DTDM – Tool & Die Making | Government Tool Room & Training Center

AWARDS & RECOGNITION

- **Connect Trophies Winner:** Semifinals – Gold; Finals – Bronze.
- **Best Execution Project Award:** For driving on-time, on-cost delivery with outstanding results.
- **Faster Award:** Agile approach resulting in reduced project lead time.
- **Spot Award:** For best contribution.
- **Star Performer Award:** Best performance and exceptional achievements.
